

Announcement,

Family garden day was scheduled for May 23 at 3:30 pm. Since we had to plant the plant already we are changing the garden day event to an open house event of our new garden and nature prairie area. The date and time will remain the same and will continue until we close at 6:00 pm. This will be a come and go as you please. Once you pick up and check out your child come over to the garden area, using the gate just past the "tots" playground. Someone will be over there to answer any question about the area and what to expect over the next weeks, months and years. You can also see our new greenhouse, which was very successful this spring. Hope to see you there.

Thank you
